

What specific goals, including those related to your occupation, have you establish for your life?

I have been teaching for two years now. In such a short time I have experienced classroom teaching. I have handled students of different levels. I would like to be the Department head or Dean. One of my goals in life is to have my own business in the future. For now I'm doing a marketing research for the business that I would like to start someday.

As a fresh graduate. I have established myself by studying hard during my university years. I was active in our school. During that time I developed my skills (leading people, interpersonal skills and planning activities). As for now my specific goal is to find a suitable job in 6 months time. I would be an effective, responsible and productive as an Office clerk. Hopefully I would be the team leader or supervisor of this company.

What will it take to attain your goals and steps have you taken toward obtaining them?

To attain the goals that I. I must educate my self about business that I want to have and save money. Pursue my studies. In 7 years time hopefully, I have my Doctotals degree in education and attend seminars to widen my horizon. For me to have more chances to be promoted.

In order to obtain the goals that I have. I will pursue my studies in MBA and attended seminars to widen my knowledge.
